    class Window
    class MBC_WPF_MainWindow["MBC.WPF.MainWindow"]
    MBC_WPF_MainWindow --|> Window
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'Window'. Below it is a box labeled 'MBC.WPF.MainWindow'. A blue arrow points from the 'MBC.WPF.MainWindow' box up to the 'Window' box, indicating that 'MBC.WPF.MainWindow' inherits from 'Window'.
